

## QRelation Management Team GmbH with new location in direct customer proximity at the special airport Oberpfaffenhofen

*Jesteburg, 24 January 2022 - Since mid-January, the QRelation Management Team is on site with its own office in the industrial park at Claude-Dornier-Str. 1 for customers of the Bavarian aviation industry within walking distance (next to the location in Munich).*

In the aerospace & defence sector, the QRelation team has always been strong in terms of competence and customer base. Now, with the fourth location in addition to Hamburg, Jesteburg and Munich, the best conditions for further growth have been created at the special airport Oberpfaffenhofen.

At the location, the management experts already support innovative manufacturers of aircraft and components. "This innovation-friendly aviation industry environment offers the best conditions for supporting other local companies with our deep aerospace expertise and agile project solution approach," managing directors Stefan Karstens and Stefan Heinsohn say in full agreement.

By the way: If you want to help shape the change in the German aerospace industry now, you will find numerous interesting project management jobs in permanent positions or as freelancers in northern and southern Germany. Just check out the careers page!

If you have any questions or would like to get in touch, please contact Stefan Heinsohn at [s.heinsohn@QRelation.com](mailto:s.heinsohn@QRelation.com) or +49 (0)162 2105945.
